FARRWEST

CONNECT-PAK

Effortless connectivity for AreaRAE System Monitors

Introducing the FarrWest Connect-Pak - your ultimate solution for seamless plug in and play connectivity tailored specifically for the AreaRAE Systems. Engineered to empower response teams, our robust portable hub revolutionizes on-field operations by effortlessly linking AreaRAE monitors to a cellular network - all without the need for cumbersome laptops or extra hardware.

Crafted for the rigors of emergency scenarios, the ConnectPack embodies efficiency and reliability. Its self-contained design ensures swift deployment, meeting the urgent demands of first responders tackling event monitoring, spills, leaks, and other dangerous incidents. Elevate your response capabilities with the FarrWest Connect-Pak - where seamless connectivity meets reliability for unparalleled on-site performance.

- Easy to deploy; Simply power on and connect a RAELink III
- Remote management via web interface
- Long lasting internal battery provides up to 16 hours of operation.
- Compact and portable solution.
- Rugged and lightweight design at 8 lbs.
