DECON:TECT

PDK

PERSONNEL DECON KIT

NARCAN® ONLY WORKS AFTER AN OVERDOSE.

Protect yourself from accidental synthetic opioid overdose.

Eliminate the potential for an accidental overdose with a fast, simple, and effective decontamination process.

Exposure to even small amounts of synthetic opioids puts you at significant risk. The PDK can be stored safely in a cruiser at temperatures from -40°F to 160°F (-40°C to 71°C).

EVERY PDK INCLUDES:

(1) 200 Ml Dahlgren Decon

(2) FiberTect 6" x 12" polyester wipes

(1) Mini Sprayer

(1) Stirring Rod

(1) Mixing Beaker

PDK Part Number: PDK-06-612/2

You no longer have to wait for the HazMat team if there is only a small amount of synthetic opioids at your scene or in your cruiser.

If you follow your department's SOP on wearing PPE, you can quickly and safely eliminate the threat using a simple, **wipe**, **spray**, **wipe** process.
