# PHDK

## PUBLIC HEALTH DECON KIT

## BE READY WHEN IT MATTERS MOST.

In mass casualty incidents (MCI), civilians may be exposed to hazardous materials. Many won't be able to decontaminate themselves. Responders need a fast, portable way to decon people on the ground before they can be moved or treated.

**The PHDK, part of the MDK series of products, gives responders everything needed to perform Dry or Hybrid Decon on 250+ people. It's compact, easy to use, and designed for real-world emergencies.**

- **Supports both Dry and Hybrid Decon.**
- **Includes FiberTect wipes and Dahlgren Surface Clean soap.**
- **Decontaminates 250+ people. All components skin safe.**
- **Comes with sprayers for soap-and-water decon.**
- **Rugged, wheeled case for easy transport.**
- **10+ years of shelf life.**
